January 23, 2007

FOR IMMEDIATE RELEASE

The Town of Clarkdale adopted a Drought and Water Shortage Preparedness Plan (DWSPP) on November 14, 2006. Our goal is to educate the community about the provisions of the plan so that customers understand their water use responsibilities during times of drought, water shortage, and high water usage. We are approaching this through a process which includes public and employee education, community signage, and school and business owner education. A series of open house meetings will be held in March to discuss the Drought & Water Shortage Preparedness Plan, and answer any questions.

The Drought & Water Shortage Preparedness Plan, the Town Code, and a variety of other information are available on the Town's website at [www.clarkdale.az.us](http://www.clarkdale.az.us).

For more information, please contact the Clarkdale Public Works Department at (928) 649-3538.
