Clark Memorial Library Closure for Radio Frequency Identification System Project

On Monday, February 25, 2013, the Clark Memorial Library will be closed and will resume normal operational hours on Tuesday, February 26th. The library will be moving to a radio-frequency identification (RFID) system, the cost of which is being provided through the Yavapai County Library District. This system will expedite check-outs and check-ins in addition to ensuring inventory control. In order to achieve this, all of the library's materials will need to be tagged with an RFID tag and documented, associating the item's record with the tag. This is a very large project to undertake, thus resulting in the need to schedule closure of library operations for one day in order to maximize abilities to carry this out effectively, and minimize any inconvenience to patrons. If you would like more information, please contact the Clark Memorial Library at 928-639-2480.
